ONLINE BIDDING

(817) 725 - 8595

TERMS

Cash or good check unless arrangements are made with owners prior to the sale. Settlement should be made promptly with the cashier at the close of the sale.

BIDDING

After an animal is in the sale ring, it will be sold to the highest bidder. The auctioneer will settle all disputes relative to bids. Announcements: Any correction made sale day from the auction block will take precedence over statements in the catalog or other advertising. Trucking: Delivery is the buyer's responsibility, but all consignors will assist with delivery if possible.

GUARANTEE

Through pedigree and/or DNA testing, all sale cattle are free from all known genetic defects. All animals of breeding age are guaranteed breeders. All untried animals are guaranteed to be without known defects, but nothing further. Animals failing to breed after a trial of six months may be returned to the farm or seller, in good condition. The seller reserves the right to try said animal for six months and if it proves to be a breeder, to return it to the buyer at his expense. If the animal proves to be a non-breeder, satisfactory exchange will be made or purchase price will be refunded.

All bulls will have passed a breeding soundness exam performed by a veterinarian within 30 days of sale day and they also will have had a negative BVD - PI test.

Each animal will be at the purchaser's risk as soon as sold and can be moved after the settlement has been made.

Cattle sell under the standard terms and conditions of the American Black Hereford Association. The Tennessee Black Hereford Association and sale management act only as agents between buyer and seller, and any guarantees will strictly be handled between seller and buyer.

HEALTH

Each animal will be accompanied by an individual health certificate.

LOAD OUT

Cattle are available for load out following conclusion of the sale. Settlement must be made prior to load out. Please check your settlement sheet with the owner or sale representative to be sure you have the correct animal.

LIABILITY

Neither owners or sale management assume any liability for any accidents that may occur to the animal after it is sold. All persons who attend the sale do so at their own risk and owners or sale personnel assume no liability for accidents prior to, during, or after the sale.

REGISTRATIONS/TRANSFERS

Registration papers will be transferred following the sale at the seller's expense to the buyer per instructions given to sale clerks. Proper breeding statements will be given when transfers are made.

APPROVED HERD SIRE. L103 could be THE BEST PUREBRED herd bull prospect to sell this year! Sired by El Mago, a great Homo Polled bull that has been very widely used this past year, and out of a powerful Black Jack female that is out of the great 3C's Evelyn E01 donor! Sir Mago clocked in with a 787 lb WW and was 1206 lbs at yearling, besides his awesome performance data he is powerfully built, structurally sound and extremely attractive. He Qualifies for TN Ag Enhancement Program.

A commercial man's kind here. This could be the best bull in this sale. He's as stout as they come if you sell calves at your local market. This guy offers scale mashing growth to your calves. He's very deep, and a massive made bull. Deep sided and carries that all the way to his flank. Extremely efficient, he ranks in the top 5% of the breed on WW and YW. Qualifies for TN Ag Enhancement Program.

Emma's one of our great foundation females. She's sired by a bull we bought at Candy Meadows Herford sale in Lexington, TN. Her dam was purchased at the Sun Set Ridge dispersal sale. Emma is one that's Difficult to part with. She will be a herd builder for years to come. She is maternal built for exploding a program to the next level.

We are extremely excited to offer semen on our new herd sire we acquired from Burns Farms this past November! 1227 was one of the most talked about Black Hereford bulls to sell this fall, after commanding \$15,000 at auction, we quickly got him to stud to start collection. We truly believe that this bull is one of a kind when you combine his soundness of structure, bold rib cage, and sheer presence on the move in a PUREBRED package. 1227's sire, Rocket Man has been a high-use sire at Burns Farms. In Kansas City, we exhibited the Grand Champion Percentage heifer who, like 1227, is sired by Rocket Man.
