ONLINE BIDDING

(817) 725 - 8595

TERMS

EPD's reported are reflective as of February 20, 2025. For updated EPDs please visit www.blackhereford.org. Payment will be accepted in the form of cash or check. Settlement should be made promptly with the cashier at the close of the sale. Announcements made sale day from the block take precedence over printed material in this catalog.

BIDDING

After an animal is in the sale ring, it will be sold to the highest bidder. The auctioneer will settle all disputes relative to bids.

Trucking: Delivery is the buyer's responsibility, but all consignors will assist with delivery if possible.

GUARANTEE

Through pedigree and/or DNA testing, all sale cattle are free from all known genetic defects. All animals of breeding age are guaranteed breeders. All untried animals are guaranteed to be without known defects, but nothing further. Animals failing to breed after a trial of six months may be returned to the farm or seller, in good condition. The seller reserves the right to try said animal for six months and if it proves to be a breeder, to return it to the buyer at his expense. If the animal proves to be a non-breeder, satisfactory exchange will be made or purchase price will be refunded.

All bulls will have passed a breeding soundness exam performed by a veterinarian within 30 days of sale day and they also will have had a negative BVD - PI test.

Each animal will be at the purchaser's risk as soon as sold and can be moved after the settlement has been made.

The Tennessee Black Hereford Association and sale management act only as agents between buyer and seller, and any guarantees will strictly be handled between seller and buyer.

HEALTH

Each animal will be accompanied by an individual health certificate.

LOAD OUT

Cattle are available for load out following conclusion of the sale. Settlement must be made prior to load out. Please check your settlement sheet with the owner or sale representative to be sure you have the correct animal.

LIABILITY

Neither owners or sale management assume any liability for any accidents that may occur to the animal after it is sold. All persons who attend the sale do so at their own risk and owners or sale personnel assume no liability for accidents prior to, during, or after the sale.

REGISTRATIONS/TRANSFERS

Registration papers will be transferred following the sale at the seller's expense to the buyer per instructions given to sale clerks. Proper breeding statements will be given when transfers are made.

M031 has been a standout in a great group of heifers. She is HOMO BLACK and HOMO POLLED out of our great sire Hell Cat. Just like her sire and dam she's very correct structurally and thick front to back. With a 635lb weaning weight with NO CREEP she brings a lot to the table for any herd or take her to the show ring.

This Purebred heifer is packed with style and has all the makings of a great cow. She has a 12.7 CED value while also ranking in the top 25% of the breed in WW & YW. When you combine that with a top 15% Milk and a top 1% in docility you have all the makings of a great cow. She is backed by genetics including Belle Air 6011, Mytty In Focus, SHF York, 3027, and 789T. This heifer is the most gentle we have on the farm and is especially hard to let go. Sells open. DNA confirmed Homoblock

LOTS 17-19 FOOTNOTES:

Burton Cattle Company has a reputation for delivering high quality cattle. Back in the TBHA sale for the 3rd year, they have delivered again with these 3 open heifers. Look at their pedigrees and you'll see some of Burton Cattles best. They are all sired by Triple T's Javier 41J by 8622. If you're looking for sound, big framed, high quality females that will work in any herd... look no further.

This heifer has been my favorite ever since we weaned her. She is thick, has eye pigment, and just has the look of a great brood cow. Boasting (7) EPD values in the top 10% and (10) in the top 25% she is truly elite in terms of merit. She is by Cuda and out of a first calf heifer whose dam is the oldest and most maternal cow in our herd. This heifer ranking in the top 1% of the breed in TM is indicative of that. This heifer is truly the kind you can build a herd off of so don't let her slip by you on sale day. Selling with (2) straws of semen by HB020550, a fantastic homo black/poll calving ease bull by Smith Black Herefords in Iowa (buyer to pay shipping). Sells open and ready to breed.

This Purebred **Approved Herd Sire** will be a great addition to any operation looking to add calving ease and style into their program. This bull has the look, genetic qualities, and pedigree to be great in years to come. M007 is sired by "Maverick" a bull we purchased from J&M that goes back to BR Belle Air 6011 and out a fantastic F1 cow that was by Mytty in Focus. His dam is the oldest cow in our herd who is a true matriarch and was the first homo black/polled daughter we raised. This bull has (9) EPDs in the top 35% of the breed showcasing just how balanced an offering he really is. If you're looking for a bull to do it all for your program, make sure you bid hard here. Qualifies for TAEP. Retaining 1/2 semen interest in this bull. Homo black and homo polled pending DNA results.

When we were finally able to get our hands on some Sitz Upward 907R semen we had dreams of having a F-1 daughter that we hoped one day would be a foundational piece to our herd for years to come. Well as luck would have it we were blessed with M003 instead. This young F1 bull is by far the best we've raised to date even though he is out of a first calf heifer. If you are a commercial cattleman looking for elite curve bending EPDs then don't let this guy pass you by on sale day. M004 has a top 10% CED along with top 3% WW & YW EPDs. Combine this with a top 15% CREA and 10% MARB and you really have a bull that is set up to sire some outstanding progeny destined for the rail.

This coming 4-year-old Thunderstruck daughter will have plenty of friends come sale day. Her grandsire, NJW Z17 Vaquero 25C, needs no introduction to Hereford breeders. Semen on this elite Sire of Distinction is next to impossible to find. Vaquera's disposition is second to none and will make a great foundation cow for a young breeder seeking elite genetics in a gentle package. She is due in early March to our "secret weapon" RHBH Outcrossed Sensation L5 (HB028030), a phenotypically flawless son of DCD Sensational 711 that we acquired from Rode House Black Herefords in 2024. This mating could be very special so help yourself here!

In Greek mythology, Themis is the goddess of justice, law and order often depicted with scales. When this easy fleshing coming 3-year-old steps on scales, this moderate frame meat wagon crushes them compared to most cattle her size. Her dam was just sold as a breeder at the ripe old age of 16 proving the longevity and stay ability of this outcrossed line of forage based Hereford genetics. She is bred for a mid-March calf to the second high selling bull at Purdue's Indiana Beef Evaluation Program, SHERMAN X-Factor RHBH 23 L11 (HB028011). This will be the first X-Factor calf to sell so get in on the ground floor with this unique opportunity.

Here at 3C's we wanted to offer our very best genetics. Coming from the top of our Donor pen. 563 is where it's at; Grand Dam to One Night Stand, Dam of Last Man Standing (Both Triple Crown Winners) We felt Thunder has been one of the most talked about Purebred Homo Black, Homo Polled Bulls out there. This mating has the potential to be Homo Black, Homo polled and High % not to mention demanding some major dollars. Selling 4 number 1 embryos guaranteeing 1 90-day pregnancy if put in by a license technician.

Once again from the top of our Donor Pen 563 is leaving her mark on the breed. It's only that she flushes so well that we can offer another set of 4 Embryo's (producing 132 oocytes on her 1st flush) . We felt like Guardian would make some next level offspring. From show ring to front pasture kind. This mating gets me excited for the future of the Black Hereford breed. Selling 4 number 1 Embryo's guaranteeing 1 90-day pregnancy if put in by a license technician.

We believe NJW Polled Herefords are one of the best Hereford breeders in the United States and that is why we targeted this donor cow for our own herd. NJW 237B 168C MARINA 21E has a pedigree stacked with some of the best, Tuff 1010, Spiritqueen 12A and 73S... Sir, Jo Thunderstruck, consecutively one of the most proven Black Hereford bulls in the University Pennsylvania Bull test, his calves are thick in every aspect.

We guarantee one pregnancy if put in by a certified embryologist.

Proceeds to be donated to the ABHA Juniors. If you're looking for a Purebred (97%) calving ease sire that is backed by superior genetics and has loads of style, then Trek is the bull for you. By NJW Long Haul and out of a direct 789T cow this bull was made to sire great progeny. He ranks in the top 1% of the breed for Total Maternal and Milk so you can be assured he will sire great females. When you combine that with (8) traits in the top 15% of the breed you really do have a curve bending sire that can improve a herd quickly. Trek has seen use in herds all over the country and his first progeny are standouts.
